SOCKER FOOTBALL

Teams Going After Daynes Challenge Trophy.

Trophy.

There was some talk a week or two ago of playing the final tie for this trophy at Park City, providing that the Park team got snowed under in their contest, but the probability is that the final will be played in Salt Lake, and that is where it ought to be played, this being both the metropolis and State capital.

The probable favorites will be the Salt Lake A. F. C. and Eureka, two very keen rivals in the socker world, and although the oup team of the Salt Lake club gave only a medicore display on last Monday (Arbor day), owing to the weak opposition, yet they are capable of an entirely different standard of play, which will be revealed when opposed to a stronger team.

Munroe is training on a small-geared wheel so as to get fast motion. He will probably think he will want a motor to give himmotion when he mixes with the fast bunch that is here at the saucer track.

Saxon Williams and Eddie Smith had a thirty-six-mile road ride yesterday, making the trip to Farmington and return in one hour and forty minutes, which is good considering the roads.

Samuelson in Training. W. E. Samuelson has made his first century to Provo and should ride better this season than ever before, as the hard work which he did in Australia will naturally make him stronger. Peddiar Palmer will do road work with Sam, as it is much easier to train with a partner than alone.

Fast, Slow or High Ball? ne Special Sporting Service.

Tribune Special Sporting Service.

LOUTSVILLE, Ky. April 21.—A group of well-known bowlers were discussing the approaching State championship bowling tournament this week at the Woodward alieys. The conversation drifted around to the comparative merits of the fast and slow ball.

One expressed the opinion that a swift ball was the more effective. Another intimated that a slow ball should be played, while a third held the opinion that luck was the most important part. After arguing for some time they all despaired of agreeing, and appealed to Secretary De Witt. He had taken in the situation beforehand, and not wishing to defend any of the debaters, told the following story:

of his success.

Tarranged to roll a game with him at an alley where he had never bowled before. I dogged his footsteps all that day, and late in the afternoon had the fortune of seeing him start for the siley where we were to bowl. I followed to the door and concealed myself.

"Well, sir, when the alley became deserted and the pin boys were dozing, my friend pulled out one of those levels carpenters use and started getting the lay of each alley. Most alleys have some defect, you know, and when you once find it out, all you have to do is to steer clear of it, and if anything of a bowler you can run up a high score."

VANDERBILT CUP RACE ATTRACTS MOBE RIDERS

Cars From All Over the World Will Take Part in

NEW YORK, April 21.-The first meeting of the newly-appointed racing board of the American Automobile association was held at the Automobile club of America's room this week. Commendable activity was shown in making arrangements for the Vander-bilt cup race next fall, and before the adjournment was taken all important features pertaining to the big road content were discussed. Such sugges-tions as were adopted cover nearly everything of importance, so that there now remains nothing but the detail work, which can be left for some months. Celerity appears to be the object of the new racing board.

Entries Close June 1.

The date of entry closing this year vill be June 1, two weeks later than 1905, which will allow manufacturers more time to make their decisions about building special cars for the contest. June 1, too, will require the entry of French cars before the running of the Grand Prix, which occurs later in the month, and thus precludes the advantage to France of entering only C. Craig, the captain of the Ogden high the cars that perform best in that

There was one chap who invariably won Sometimes he would roll a swift ball, and then again he would bowl slowly. When we were bowling out of town he would seldom enter a game unless he had been in the city at least twenty-four hours. Same Course to Be Used.

Virtually the same course will be used this fall. Slight deviations will be made in order to avoid the dangerous curve at Albertson's and the Guinea Woods corner but otherwise the flyers will hold to the regular Nassau county course, which is conceded to be one of the best short routes for a high speed contest in any part of the world. The inclusion of these charges will not after the distance materially. It will still be ten times around, mak-ing the total about 285 miles.

OGDEN FAVORS HYLAND.

Expects to Send Large Delegation Here Next Friday.

Special to The Tribune.

OGDEN, April 21.—Jim Donaldson of Salt Lake, who is managing the coming exhibition between Young Corbett and Dick Hyland, which is to be pulled off at the Salt Palace, in Salt Lake, on April 21, was in Ogden today arranging for the sale of seats for the big event. Mr. Donaldson stated to Ogfen sports that in Salt Lake the betting is about even, with Hyland a slight favorite. The game, he sald, was an even guesa. In this the Ogden men do not eatirery agree with him, for the reason that where bets can be secured here they are five to four in favor of Hyland.

Mr. Donaldson made arrangements for the sale of seats for the Ogden people, who will attend the contest, and the Falstaff cafe will be headquarters. A considerable space, enough to accommodate Special to The Tribune.

200, is reserved in a block for Ogden, which has always turned out a good crowd for every reputable sporting exhibition in Salt Lake, and tickets can be secured at the Falstan.

A special train with a cheap round trip licket will be run form Ogden to Sait Lake and return over the Oregon Bhort Lane on the night of the match. This will be in conjunction with the Modern Woodmen of America, which, a year ago, won the banner of the State for membership, and this year lost it to Sait Lake. They go to Sait Lake in a body on that night to return the banner to the Sait Lake Modern Woodmen.
